The Hospital gives some very good advice respecting the bolling of milk, which we cannot do better than reprint verbatim: There seems to be no doubt that the milk of cow suffering from diphtheria will communicate the disease to those who drink it unless it be thoroughly cooked. SARAH AS PAULINE BLANCHARD.

A moan in six acts was uttered at the Standard Theatre last night by Sarah. It was called "Pauline Blanchard," and it dealt with agony "in all styles." It was an unlighted picture of French country life, by believe that "fond nature bids us all lament." With Sarah out of the cast "Pauline Blanchard" would probably come in for a good share of our ridicule, for its characters are all the conventional ones of tragedy—the ultra-stern father, the fervent lover, the hated rival and the despairing heroine, and their tragic sides are accentuated so as to overshadow every-thing else.

Imagine "Pauline Blanchard" translated into English and done at one of the Bowery theatres, with real reapers, a quartet of boy voices "-as Daly would say-and s country dance. You can almost see the typical American tragedy star ranting all over the stage as she has never ranted before, for "Pauline Blanchard" is agony distilled. and there is no respite.

Sarah, however, entirely robbed the drama of its cheap horrors and gave a magnificent performance, that may be described as the best example of absolutely legitimate tragedy that New York has had for a very long time. As the simple country girl, Sarah is as mar-vellously convincing as in the more pretentious roles of her repertoire. She has never scope in the first act with her father, when he rants and rages, and she, silent and afraid watches his face. Sarah does not say a word. this superb actress held the audience in a

Pauline has promised Fraucois that she will say "No" at the last moment, and tells his father, who is to perform the ceremony, that Pauline has been his mistress. This does not move Pauline's if she fail to do her duty, "Sur la memoire de ta mere morte, je t'ecraseral devant tous." In her agony she says "yes" when she inwife. Sarah's face during the ceremony was wonderful picture of dumb, intense misery. In the third act, all mud-bespattered, she appears at the house of a garrulous old aunt, and Francois finds her there. She has run away from home immediately after the marriage ceremony. In the fourth act efforts are made by her father to discover her where abouts. In the fifth act Pauline's reason has given way. She hears that Francois is in love with " la petite Simon," and this is the last straw. She suffers from hallucinations thinks she sees Cadet, and finally starts forth her natural desire.
